

Roaming the seas of
4546-B and need
something to open
applications quickly?

Made by Lilyana
Grabrovaz (15),
and Vivaan Anand
(14) in the United
States.

A custom-built
shortcut
keyboard
modeled after
the iconic PDA
from
Subnautica.
Designed to
be held in
your free
hand or kept
to the side on
your desk to
make opening
apps while
your working
or just surfing
the internet.
